The University of North Carolina at Greensboro

Approved by Paul Forte, Interim AVC for Finance, August 4, 2021

Revised August 4, 2021

1. Purpose

This policy outlines the University’s general policy of fiscal responsibilities and accountability of expenditures to maintain integrity in the University-related transactions and to reduce the potential for misuse of University resources.

2. Scope

This policy applies to all University funds, regardless of fund source, spent by all departments, units, and divisions.

3. Definitions and Roles and Responsibilities

3.1 Definition

Fund Owner: an individual with disbursement authority over a fund. Fund Owners are personally responsible for all transactions within owned funds. The Fund Owner (Principal Investigator, Department Head or above) has the responsibility to ensure that proper documentation procedures are followed for accounts or projects that he/she controls and that only authorized expenditures are charged to an account. It is the responsibility of the Fund Owner to review his or her monthly fund reports in detail on a timely basis, as a tool to better fulfill their responsibilities.

4. Policy

General Statement

The administration of The University of North Carolina at Greensboro, being mindful of its responsibilities to manage funds from all sources which are entrusted to it for carrying out its programs and activities, deems it advisable to promulgate written policies, guidelines, and procedures for the prudent expenditure of those funds. Such policies assist the University in meeting its obligations of public accountability and responsibility to the State of North Carolina and to other constituencies which have made those funds available. Our responsibility is to facilitate the support of quality programs while ensuring that resources for those programs are spent legally and wisely. The State Auditor, and other relevant agencies, have insisted upon certain standards.

These policies, guidelines, and procedures are applicable without exception to all funds owned or administered by The University of North Carolina at Greensboro. All expenditures of the University are to be consistent with applicable State and Federal laws and regulations; any restrictions, rules, or regulations placed on the use of the funds by donors and granting or contracting agencies; and prudent management.
practices. In addition, all expenditures from University funds must be reasonable and necessary for carrying out the programs and activities of the University and are to be documented in a way which clearly substantiates such reasonableness and necessity.

Before expenditures are made against any University funds, there must be evidence that the Procurement Policies and Procedures have been followed, thereby ensuring that a valid commitment of University funds has been made. Obligations incurred by any employee of the University in conflict with the Procurement policies and procedures become personal obligations of the employee and not of the University. For a more precise and detailed description of those policies and procedures relating to purchasing commitments, reference should be made to the Procurement Section of the Policies and Procedures Manual.

Approval of Expenditures
Signature of the appropriate Fund Owner (person responsible for a fund, or a designee) is required for expenditures to be made against the fund. Since there are several ways in which obligations are incurred and expenditures made, the approval of the Fund Owner/designee is required on those documents pertinent to the situation. The individual with fund responsibility (usually a Department Head, Director, Dean, or other management level position) has ultimate responsibility for all transactions for their fund(s) and are held accountable.

Purchases not requiring approval from the Procurement Office prior to purchase
Items qualifying as purchases of this nature are specified explicitly by the Purchasing Office:

In addition, prior to the time a check is written, each request for expenditure must be signed on behalf of the Vice Chancellor for Finance and Administration by a designated Finance employee. Requests for expenditures not meeting the documentation standards and other guidelines must be rejected, and a reason for such rejection clearly stated. Unless the problem is resolved by the requesting account holder, the Vice Chancellor for Finance and Administration, who has final authority in resolving all questions relating to validity of expenditures, will not approve the payment.
